WHAT WOULD YOU SAY?

Nearly half of drivers who said in a recent government survey that their use of seat belts had increased over the past 12 months attributed the change to encouragement or pressure from others. If you know someone who doesn’t buckle up all the time, you could be the one to convince them to start!

Some common reasons for not buckling up ALL the time are:

- The probability of a crash is too low...
- Seat belts are uncomfortable...
- I am afraid I will be trapped in my vehicle...
- Seat belts wrinkle my clothes...
- I’m only driving a short distance...
- I’m a good driver...

______________________________

Pick a passenger’s reason for not buckling up (or add a new one) and write in what you would say if you were the driver.
