Follow-up from the Positives from Monday, March 23

Kalispell, MT – On Monday, March 23, 2020, Flathead City-County Health Department received notice via the Department of Public Health and Human Services (DPHHS) that 2 additional individuals have tested positive for novel coronavirus (COVID-19) in Flathead County. The first individual is a female in her 30s and the second individual is a male in his 50s.

The female in her 30’s had domestic travel and her contacts have all been notified. If you have not received a call regarding contact with a case you are not a contact.

The male in his 50's is a direct contact with the male in his 50's positive from March 20, 2020. They had duplicate contacts and have been in isolation since the original diagnosis and very limited contact with public prior to the original diagnosis.
