

HELP KEEP BUSINESSES OPEN: WEAR A FACE COVERING

Local businesses are beginning to get their feet back under them. As customers and staff, let's help businesses continue to operate by following the guidelines put in place to keep our community safe. If we all do our part to prevent and reduce the spread of COVID-19, businesses can continue to function safely.

Current Guidelines and Recommendations:

- The CDC recommends that people wear cloth face coverings in public settings and when around other people who don't live in your household.
- Wash your hands often with soap and water for at least 20 seconds.
- Avoid close contact with others and put 6 feet of distance between yourself and people who don't live in your household.

How Do Cloth Face Coverings Work?

Cloth face coverings may prevent the person wearing the mask from spreading respiratory droplets when talking, sneezing, or coughing. If everyone wears a cloth face covering when out in public, such as going to the grocery store, the risk of exposure can be reduced for the community.
