

BACK TO SCHOOL

Student Immunizations

The Flathead City-County Health Department
and the **Flathead Community Health Center**

want to help get your kids back to school safely this year. This means helping get students up to date on their required immunizations.

Please contact your Primary Care Provider to schedule an appointment for immunizations required for kindergarten, 7th grade and college entrance. If your provider is unable to provide the needed immunizations, we will provide this limited opportunity for back to school immunizations.

Due to COVID-19 our opportunities to provide this service are limited. These clinics will provide walk in appointments for students needing vaccinations in order to attend school in 2020 only. We are unable to offer other immunizations at this time. There will be no titers drawn at this event.

WHEN: AUGUST 10, 12, 17, 19, 20
BETWEEN 9:00AM AND 6:00PM

TIPS:

- All individuals 5 and older will be required to wear a mask.
- We will be asking individuals to wait outside of the building in order to adhere to physical distancing requirements so please dress accordingly.
- Please do not come to the clinic if you are ill. We will be screening all individuals.
- Bring your insurance card.
- Complete the consent form ahead of time if you are able. Both the adult (19+) and children (less than 19) forms can be found on flatheadhealth.org
- If you are entering college, please come prepared with the specific vaccination requirements of your college.
